Child Theme Settings

Welcome To Theme

1. Prepare for Theme Installation

[↑ Back to Top](#)

Please, read the whole section, before attempting to install the theme.
We always recommended you to take back up of your system before making any upgrades or changes!

Prepare Installation

Please do not remove classic-theme or any of default-PrestaShop store files.

During Theme Installation just disable all of cache-related settings from your store.

Need help for PrestaShop Installation, Follow the instructions [PrestaShop Doc Guide](#).

Or a quick video Tutorial, [Tutorial Video](#)

Configuration

May you first need to configure your server settings, to work PrestaShop store better.
There are three ways to increase variable limits.

Way 1. php.ini Configuration

```
memory_limit = 500M
max_execution_time = 300
max_input_time = -1
upload_max_filesize = 500M
post_max_size = 500M
max_input_vars = 10000
allow_url_fopen = On
register_globals = disabled
```

Or Way 2. .htaccess Configuration

```
php_memory_limit = 500M
php_max_execution_time = 300
php_max_input_time = -1
php_upload_max_filesize = 500M
php_post_max_size = 500M
php_max_input_vars = 10000
php_allow_url_fopen = On
php_register_globals = disabled
```

Or Way 3. PrestaShop Max Upload Size

PrestaShop 1.7.6.0 Quick Access Search (e.g.: product reference, customer)

to use **custom.css**, If you want to add your custom.css to your store, add your css code in **themes\[your theme]\assets\css\custom.css**

2. Theme Installation steps

[↑ Back to Top](#)

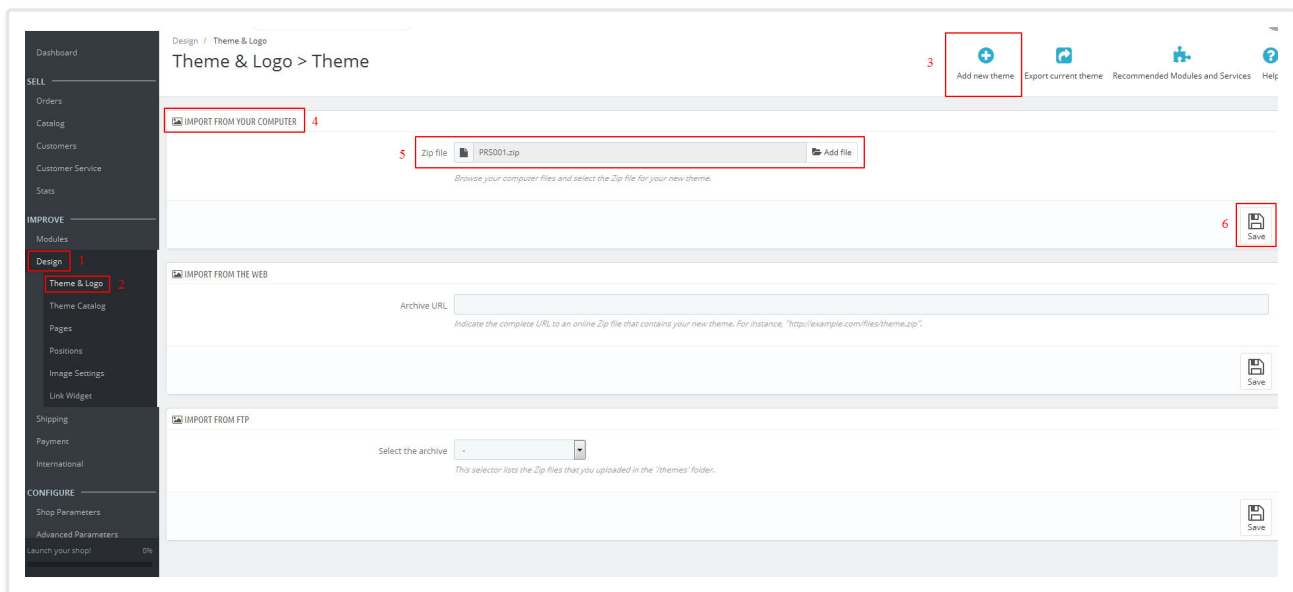

To get **FREE THEME INSTALLATION SERVICE** **FREE**

To install theme/settings without any trouble?

Yes, we're offering Free Theme Installation Service for the first time, after fully installed theme, your store looks perfect as same as our live theme demo, To get it please **Contact us**

to upload a theme, go to **"Design -> Theme & Logo"** Click on **"Add new theme"**

Here you will see **"Import from your computer"** where you need to select the **Package ZIP file** and Click on the **"Save"** button.

Now you just have to activate **"Theme"**

Adaptation to Right-to-Left languages

Be careful! Please check your theme in an RTL language before generating the RTL stylesheet: your theme could be already adapted to RTL. Once you enable the "Generate RTL stylesheet" option, any RTL-specific file that you might have added to your theme might be deleted by the created stylesheet.

Image quality

To optimize your store images, go to **Design -> Image Settings**, and set image quality as per your requirement.

IMAGES GENERATION OPTIONS

JPEG images have a small file size and standard quality. PNG images have a larger file size, a higher quality and support transparency. Note that in all cases the image files will have the .jpg extension.
 WARNING: This feature may not be compatible with your theme, or with some of your modules. In particular, PNG mode is not compatible with the Watermark module. If you encounter any issues, turn it off by selecting "Use JPEG".

Image format

☐ Use JPEG.
 ☒ Use PNG only if the base image is in PNG format.
 ☐ Use PNG for all images.

 ☐ NO

Select "No" only if your server timed out and you need to resume the regeneration.

Regenerate thumbnails

4. RTL Settings

[↑ Back to Top](#)

If you want to change any CSS-style code file, To get changes with RTL layouts you also need to regenerate its RTL file,

To Generate RTL Files:

- 1) First remove older file with file-path: STORE_ROOT/themes/PRS125_04/assets/css/theme_rtl.css
- 2) After it just regenerates rtl-file.

Go to **"Design -> Theme & Logo"** select theme and save it.

Adaptation to Right-to-Left languages

Be careful! Please check your theme in an RTL language before generating the RTL stylesheet: your theme could be already adapted to RTL. Once you enable the "Generate RTL stylesheet" option, any RTL-specific file that you might have added to your theme might be deleted by the created stylesheet.

5.2 CMS module setting

[↑ Back to Top](#)

Upload CMS Images

[↑ Back to Top](#)

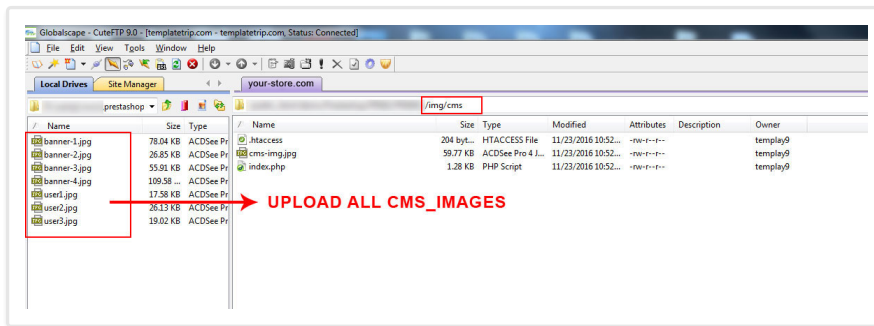

You first have to upload all CMS-images including Banners, Photos, Icons to display it with modules. There are two ways to upload images either using store back-office or with FTP transfer.

Now upload all **"CMS images"** (Same way for other layouts)

Way 1: To Upload image using Back-Office

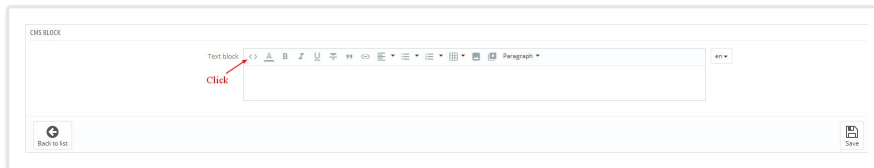

Way 2: To Upload image using FTP

Copy "**Package -> Documentation -> cms_img/cms/cms-01**" directory into "**store-root/img/cms/**"

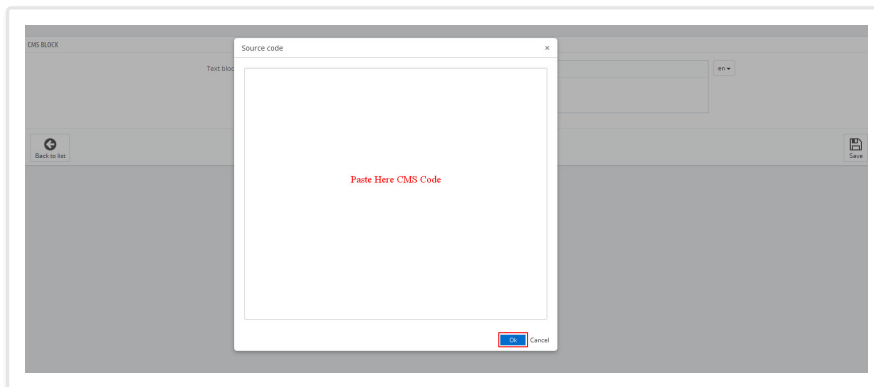

Add All of CMS Contents with its particular CMS Modules

Like, Click on **"configure"** CMS Module and Click on **CODE VIEW**

Add CMS code here

5.2.1 Module - 1: "WD - CMS Header block"

```
<div class="wd-header-cms">
<div class="content">
<div class="link">30 Days Free Return</div>
<div class="link">Free Shipping on All Orders Over $40</div>

6. Extra Modules

[↑ Back to Top](#)

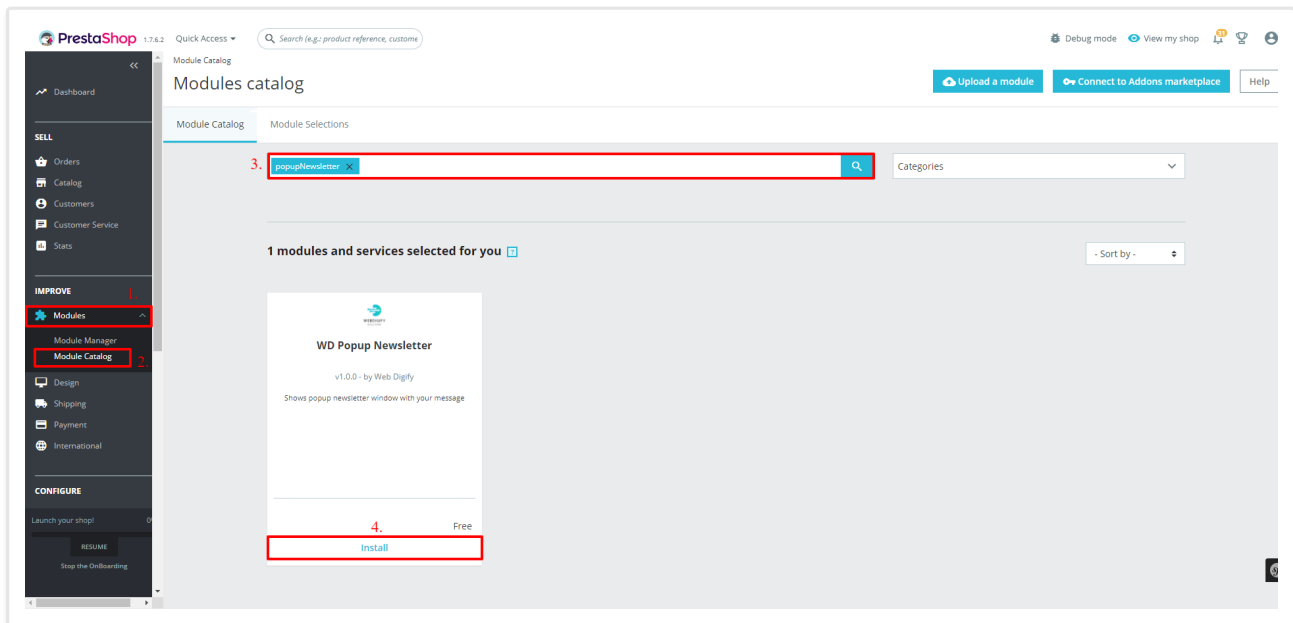

Go to **Package File -> Documentation.zip -> Extra_Module** directory to use extra modules, you need to add and configure it.

6.1.1 Module 1: WD - Popup Newsletter

[↑ Back to Top](#)

Now to install and configure popup newsletter module, go to **Modules -> Module Catalog**, and just install/configure it.

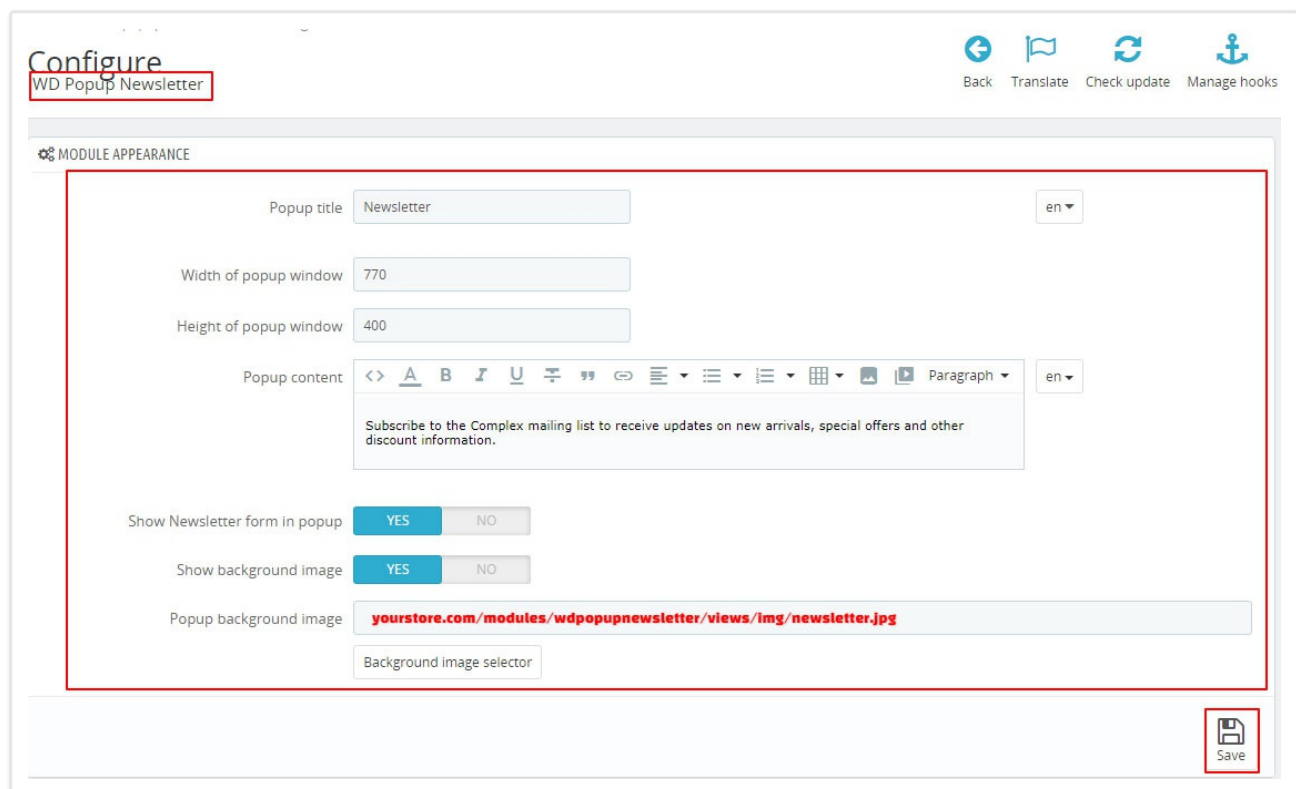

Module: WD Popup Newsletter Module Setting

[↑ Back to Top](#)

To display subscribe form with popup

Just set your custom message text

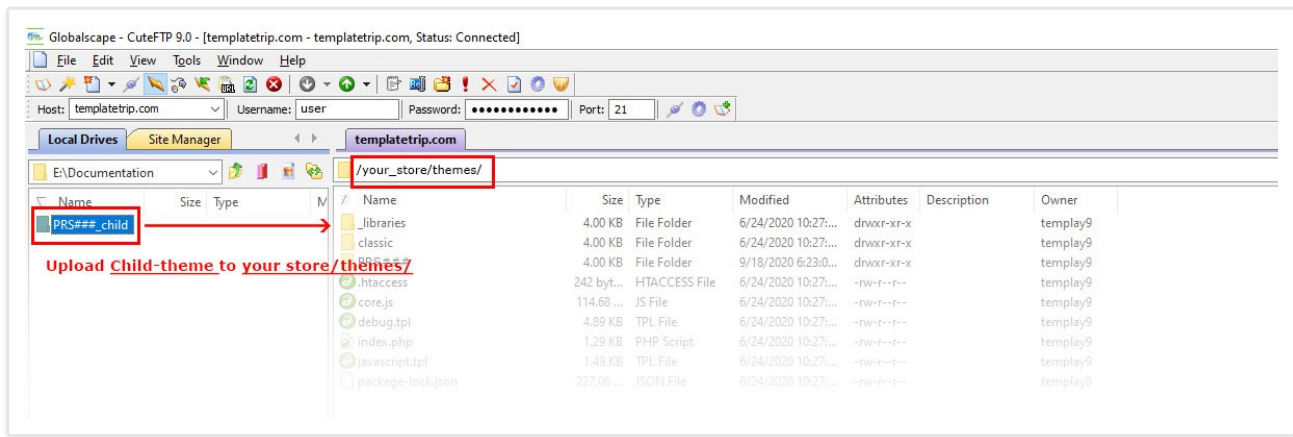

Child Theme Settings

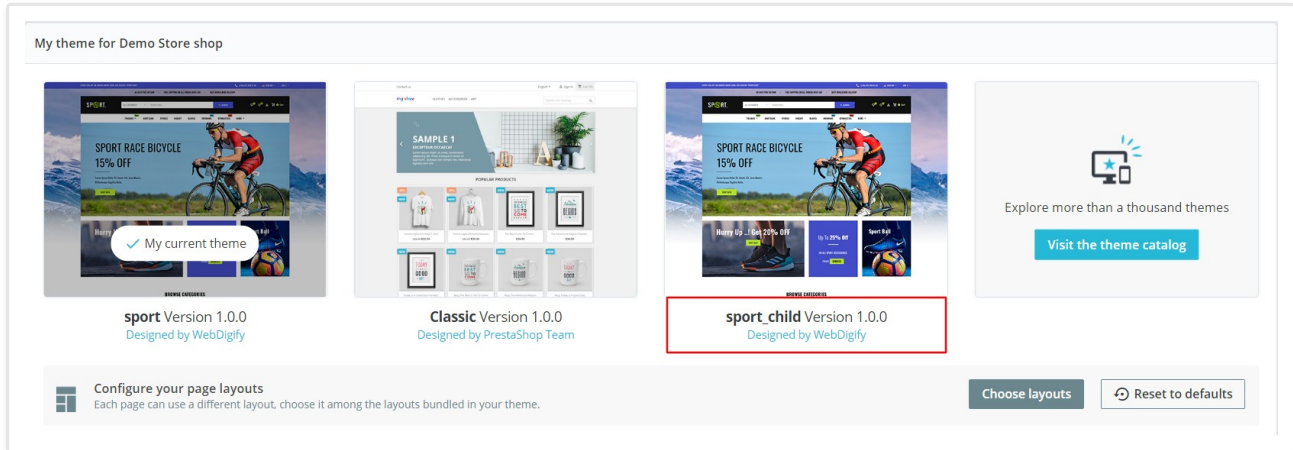

[↑ Back to Top](#)

In Case if of use the Parent/Child theme concept, here is a reference link
Follow the instructions [Parent/child theme](#)

Go to **Package File** -> **Documentation.zip** > **child_theme** > **PRS###_child** upload it to your **store-root/themes/**.

Now you just have to activate "Child Theme"

At last, everything has been completed, Now you just need to add/upload your real products and banners-images, and your store looks like our theme-demo. Still yes if you have any queries, **please feel free to contact us.**

Thank You for being our valued customer :)
